

EDUCATION

<b>SRM Institute Of Science and Technology</b> B.Tech-Computer Science and Engineering W/s Cyber Security ; CGPA : 9.00	Chennai, India <b>2023-2027</b>
<b>Shri Shivaji Jr. College</b> Higher Secondary Certificate ; 84	Wakad, India <b>2021-2023</b>
<b>Sunrise English School</b> Secondary School Certificate ; 94.2%	Risod, India <b>2009-2021</b>

SKILLS SUMMARY

- Languages:

○ Frameworks:

○ Tools:

○ Platform:

○ Soft Skills:
- C, C++, Python, Html, CSS, Javascript

Pandas, Numpy

Excel, PowerPoint, MSWord

Visual Studio Code, Jupyter Notebook

Report Building, People Management, Adaptability, Excellent communication  
Task Prioritization, Issue Resolution

EXTRACURRICULAR

- COMMITTEE MEMBER | AARUUSH | [LINK](#)**

June, 2023
- Managed and tracked the event budget, ensuring expenses stayed within limits.

○ Created detailed financial plans and forecasts for the event.

○ Processed invoices and reimbursements, maintaining accurate records.

○ Provided regular financial updates to the committee for informed decision-making.

○ Secured funding and managed sponsorships to support the event’s financial needs.
- FOUNDING MEMBER | CODENEX CLUB | [LINK](#)**

April, 2024
- Aim to develop technical expertise in app, web, blockchain, and AI/ML through targeted workshops.

○ To build industry partnerships for providing students with practical experience and networking opportunities.

○ Stimulate creative problem-solving through collaborative projects and competitions.

○ Create career pathways by connecting students with internships and job placements.

○ To deliver cutting-edge knowledge on emerging trends and technologies in key domains.

PROJECTS

- Golf Club Website Clone**

○ Developed a Desktop-optimized website with modern UI/UX design.

○ Implemented custom cursors, scroll animations, and a video hero section.

○ Built using HTML, CSS, JavaScript, and GSAP for dynamic animations.

○ Added interactive sections like About, Offerings, Testimonials, and Sign-Up.

○ Created as a practice project, replicating real-world web development stand.
- WeatherWise Pro | Based on Swift UI**

○ Uses historical weather data and statistical models to generate accurate weather forecasts for various locations.

○ Provides current weather conditions and hourly forecasts using up-to-date datasets.

○ Features an intuitive design for easy navigation and quick access to weather information and forecasts.

CERTIFICATES

- Programming in Java (NPTL) | [CERTIFICATES](#)**

○ Gained proficiency in Java programming, covering everything from fundamental syntax to advanced concepts..

○ Completed real-world projects, enhancing problem-solving abilities and hands-on experience with JDBC and Swing
- C++ Programming Beginner to Advanced (Udemy) | [CERTIFICATES](#)**

○ Proficient in object-oriented programming, including classes, inheritance, and polymorphism.Gained expertise in memory management, templates, and the Standard Template Library (STL).Developed practical problem-solving skills through real-world C++ projects and modern features.
